

ABOUT

Program Manager driving AI-integrated products and emerging technology programs from development to launch across multi-platform ecosystems. Led cross-functional execution across engineering, product, and external partners, managing stakeholder alignment from technical teams to executive leadership. Brings a B.S. in Computer Science and hands-on AI/ML fluency to translate advanced technical capabilities into high-quality user experiences.

EXPERIENCE

Independent Strategic Advisory

October 2016 – Current

Principal Consultant & Strategic Advisor

New York, NY

- Architect cross-industry strategic partnerships and emerging technology integrations between AI-first platforms, enterprise brands, and entertainment talent across media and technology sectors
- Developed and shipped an iOS application using AI-assisted development (Claude, Xcode), managing the full product lifecycle from ideation through beta release
- Negotiated and executed partnerships with AR/immersive hardware companies (Ray-Ban Meta AI, Insta360), managing end-to-end collaboration from outreach to contract execution and cross-platform asset delivery
- Leading the commercialization strategy for an education technology company's AI-integrated tutoring platform, driving engagement from needs assessment through technical implementation

Google

February 2021 – June 2025

Technical Program Manager

Mountain View, CA

- Architected testing strategy for Google Home App LLM-integrated features across 2K testers, reducing critical AI failures by 27% and improving response consistency by 45%, bridging research outputs and user experiences
- Owned end-to-end partnership between Google and LG to integrate Google Home Platform into third-party hardware, aligning cross-company stakeholders, establishing a scalable framework for future 3P partnerships
- Led cross-functional response to high-stakes IP dispute (Sonos v. Google), negotiating software release timelines and deployment schedules aligned to court deadlines, coordinating legal, engineering, marketing, and product teams to execute firmware adjustments across 720K+ devices impacting 10M+ in market
- Designed and implemented program tracking infrastructure adopted across Home, Health, and Pixel organizations, streamlining cross-team visibility into release status, risks, and dependencies with 100% adoption
- Unified fragmented platforms across Android TV, Google TV, and Chromecast by designing shared operational frameworks, aligning PM and engineering priorities to enable global launches serving 2M+ users
- Negotiated cross-team alignment and secured budget to onboard emerging technology partners (Matter over Thread, Spatial Audio) into product pipeline, structuring joint testing roadmaps that informed product development decisions, achieving 4.5 satisfaction rating
- Drove product readiness for Google TV 4K Streamer by coordinating external partners (LG, Walmart, 3P manufacturers) and internal platform teams across 20 launch countries, enabling 1M+ user activations
- Analyzed large-scale user behavior datasets across 10K+ testers to identify product patterns and risks, delivering executive-facing insights and go/no-go recommendations that exceeded user experience benchmarks by 12.5%

Heds

March 2023 – October 2023

Head of Digital Strategy & Growth

Los Angeles, CA (Remote)

- Designed and led end-to-end digital strategy for entertainment artists in the web3 space, driving a 42% engagement increase through audience segmentation and data-driven ROI measurement, while reducing content production time-to-market by 30%

LEADERSHIP

Senior Advisory Board | R.O.S.A. Foundation

September 2024 – Current

- Advise national nonprofit on initiatives that expand STEM access and career opportunities for underrepresented youth

Co-Host & Social Media Lead | Common Thread, NYC Tech Week

June 2026

- Drove live content strategy, real-time coverage, and audience engagement for AI startups, Tera and Fostr

WeCode Conference: Program Management Panel | Harvard University

February 2024

- Panelist, sharing expertise on stakeholder alignment, adaptability, and risk management in program leadership

Speaking Engagements

Big Tech Energy Podcast, UX by Alexia: Women in UX & Design Panel, Metropolitan Museum of Design Detroit, Build & Brand You Podcast, Women in Technology & Business Podcast, I've Been Thinking Podcast, Shoutout Atlanta

EDUCATION

Michigan State University, College of Engineering

East Lansing, MI

B.S. in Computer Science, Concentrations in Business & User Experience

Certificates: Google LLM Bootcamp, Google Product Management 101, Harvard Business School SVMP

Skills: AI Tools (Claude, Gemini, ChatGPT), iOS/Xcode, SQL, Data Analysis, XFN Program Management
